A procurement and supply chain student in Accra who kept noticing the same gap: the tools sold to Ghanaian SMEs assume a business that doesn't exist here. Builds the ones that do — billing rails, credit ledgers, cold chain, and a bottled kenkey brand — while reading for ACCA and, after that, an LLB.

EXPERIENCE

Procurement Officer — Intern — [JK Horgle Transport Company](#)

June – August 2026

First hands-on placement in procurement: supplier coordination and day-to-day purchasing support for a transport and logistics operator.

Founder & Full-Stack Developer — [WA-B 2.0](#)

2025 – Present

WhatsApp-first commerce and subscription billing for Ghanaian SMEs. Merchants run a catalogue, take orders and collect recurring payments without customers leaving the chat. Node/Express, PostgreSQL, WhatsApp Cloud API, Paystack, Hubtel MoMo. Deployed on Railway.

Finance & Brand — [MashKe Lab · Yohii](#)

2025 – Present

Bottled kenkey-based drinks brand (strawberry, vanilla, coconut). Ledger, reconciliation and management reporting in the finance department; also worked the brand side — identity, TV spot and multi-platform PR.

Builder — [SikaBook](#)

2025

A credit ledger for informal shopkeepers — the exercise book behind the counter, digitised. Built for the Moolre Startup Cup buildathon.

Builder — [ColdCrate Ghana](#)

2025

Solar-powered cold chain for smallholder produce, attacking post-harvest loss between farm gate and market. Submitted to Kosmos Innovation Center.

Also on the books: **CediWise** (MoMo-first personal budgeting app, prototype), **STATIQ LIVE** (sports analytics with an LLM narrative layer, prototype), **ComplianceGH Partners** (outsourced AML/data-protection business plan), **RemitDirect GH** (diaspora remittance corridor, PSP licensing), and **Sankofa** (faceless YouTube channel, 52-week content bible).
